Assignment - 4

#include<stdio.h> isincluded in all answers

1.
```c
int main()
{
    int x=1;
    while (x<=5)
    {
        printf("My Sir Gi");
    }
    x++;
    return0;
}
```

2.
```c
int main
{
    int x=1;
    while(x<=10)
    {
        printf("%d"x);
    }
    x++;
    return0;
}
```

3.
```c
int main()
{
    int x=10;
    while(x)
    {
        printf("%d", &x);
    }
    x--;
    return0;
}
```

```
4. int main()
{
    int x=1;
    while (x<=10)
    {
        printf("%d", 2*x-1);
        x++;
    }
    return 0;
}

5. int main()
{
    int x=10;
    while (x>=1)
    {
        printf("%d", 2*x-1);
        x--;
    }
    return 0;
}

6. int main()
{
    int x=1;
    while (x<=10)
    {
        printf("%d", 2*x);
        x++;
    }
    return 0;
}
```

```c
7.  int main()
    {
        int x=10;
        while (x>=1)
        {
            printf("%d", 2*x);
            x--;
        }
        return 0;
    }

8   int main()
    {
        int x=1;
        while (x<=10)
        {
            printf("%d", x*x);
            x++;
        }
        return 0;
    }

9.  int main()
    {
        int x=1;
        while (x<=10)
        {
            printf("%d", x*x*x);
            x++;
        }
        return 0;
    }
```

```
Q.10   int main()
       {
          int x = 1;
          while (x <= 10)
          {
              printf("%d", 5*x);
              x++;
              printf("\n");
          }
              return 0;
       }
```
